Renad Salem Aladwani

Software Developer, Computer Engineer

rrinad1423@gmail.com +966 55 963 8018 Jeddah, Saudi Arabia linkedin.com/in/renadaladwani Immediately

SUMMARY

Software Developer and Computer Engineering graduate (Honors) with hands-on experience in mobile application development (Flutter, Dart), web development (HTML, CSS, JavaScript, React), SQL/MySQL databases, UI/UX design, and IT systems support. Experienced in the full software development process through professional training, an application development bootcamp, software and hardware projects, and hackathons. Strong in programming, troubleshooting, system integration, and problem-solving, with a focus on building practical, user-centered technology solutions.

EDUCATION

Bachelor of Computer Engineering – Excellent With Honors – Taif University, Taif *2026*

EXPERIENCE

IT / Systems Trainee – Prince Mansour Military Hospital, Taif *06/2025 – 08/2025*

- Provided first-level IT technical support and troubleshooting; supported hospital information systems and users.
- Assisted in monitoring systems and daily IT operations.

Mobile Application Development Trainee – Matrix Group, Taif *07/2026 – 10/2026*

- Completed a 3-month practical program covering UI/UX design, frontend and backend development, and database integration.
- Built mobile applications with Flutter and Dart; gained practical experience in SQL and database management.
- Applied the software development process through project-based learning.

Software Development Track Member – Programming & Artificial Intelligence Club, Taif *08/2026 – Present*

- Participate in software development activities and technical initiatives; collaborate with team members on programming projects.
- Engage in technical learning and knowledge-sharing activities related to software development.

PROJECTS

Voice-Controlled Smart Lock System – Graduation Project

- Designed and implemented a smart lock controlled by voice commands using sensors and control modules, focusing on security, reliability, and accessibility; documented design and results in a technical report.

YSR Self-Service Healthcare Kiosk – Taif Health Cluster AI Hackathon

- Built an interactive kiosk prototype (HTML, CSS, JavaScript) with multi-page navigation, service interfaces, simulated Nafath authentication, and queue ticket printing.

PAIC (Programming & AI Club) Platform – Software Development | UI/UX

- Designed UI/UX, user flows, and design concepts for the club platform; presented the design to the development team and contributed to project planning.

Almam Coffee Application – Flutter & Dart *08/2026 – Present*

- Developing a coffee shop loyalty and ordering app: user accounts, menu, orders, branches, and loyalty points, using Flutter, Dart, SQL/MySQL, and UI/UX principles.

City Pulse – NASA Space Apps Challenge *09/2026 – Present*

- Developed a project concept addressing urban change using satellite data (surface heat, vegetation, urbanization).

SKILLS

Programming: C++, C#, Python, JavaScript, Dart, PHP

Mobile & Web: Flutter, React, HTML, CSS

Backend & Database: PHP (Laravel), SQL, MySQL

UI/UX & Tools: Figma, Visual Studio Code, Prototyping, User Flows

Soft Skills: Problem Solving, Communication, Teamwork, Adaptability, Leadership

CERTIFICATES

- Saudi Council of Engineers – Engineering Membership
- UI/UX Design (Matrix Group)
- Mobile Application Front-End Development (Matrix Group)
- Mobile Application Back-End Development (Matrix Group)
- Systems Analysis and Database Design Skills (Matrix Group)
- Artificial Intelligence Principles (SDAIA)
- Web Development using PHP Laravel (Tuwaiq Academy)

LANGUAGES

Arabic (Native) • English (Intermediate)
